filehosting provides an easy possibility for you to send large files to your friends. Simply upload your file and share the link. Just upload the file you want to share with your friends and we send you a download link to your file. You decide who you want to share your files with. You can give this download link to your friends by mail or instant messenger. If only we could, we surely would! On the other hand, using file can actually save you money. Any file in any format can be uploaded and downloaded for free. Using file, you can circumvent those limits without paying to upgrade your team chat service. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. No account or credit card is required to get started. So try our free and simple filehosting service now. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Unfortunately, we can't make that part free. You can upload any type of file (movies, music, documents, images, zip files and more). We have no file size limit. It is also allowed to link to the download page from websites and communities. File is freeto use with no gotchas and no hidden fees. The cost of that data transfer is covered by your internet service or the data plan on your phone. Keep your filesprivate, or send your download links only to friends or family. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file,data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Files transferred the old-fashioned waytend to pile up and be forgotten about, eventually costing you money in data storage fees. Files can be downloaded from any computer from our high speedservers. There are no restrictions on the number of times a file can be downloaded. Why pay storage fees for a file that you just wanted to send to a frien
